

BERWICK PLANNING BOARD
NOTES – SITEVISIT – BOULANGER PAVING – ROUTE 9
NOVEMBER 21, 2012

Present were Board members -Kerry Ashburn, Paul Boisvert, Niles Shore, Judy Burgess and Paul Kennedy representing James Chandler of Boulanger Paving. Also present was a representative from Attar Eng.

A plan was presented that showed a relocation of the building from the left side of the lot to the right side as seen from the road, due to some poor soils. The entrance/exit from Route 9 was flagged and some members walked out to the actual proposed location of the building.

Concerns/comments by the members included concerns of the proximity to the Mobile Home on the adjacent lot. Some buffering was discussed along that property line. It was stated that it appears the impact of the lights on trucks entering would be less of an issue because of the relocation of the building.

Respectfully submitted,

Judy Burgess, Secretary

Signed as Approved:

Kerry Ashburn,
Chair, Berwick Planning Board
